

Security Consultancy

EXPERT GUIDANCE FOR SECURE, COMPLIANT,
AND FUTURE-READY ORGANIZATION

Cybersecurity without clarity

Security leaders today operate in a rapidly evolving threat landscape shaped by growing regulatory demands and an overwhelming number of security tools. Many organizations struggle to:

-  Implement security in a way that enhances—rather than disrupts—operations
-  Fully utilize Microsoft's security stack across identities, endpoints, data, and cloud
-  Respond to risks without the internal expertise to interpret alerts or optimize tooling
-  Connect technical controls to business strategy and measurable outcomes
-  Many organizations struggle to determine where to start and how to prioritize risk mitigation efforts effectively.

Without expert guidance, even well-funded cybersecurity investments often fail to deliver to their full potential.

The solution: pragmatic, people-centered security expertise

Nedscaper's Cybersecurity Consulting services help organizations realize the full value of their Microsoft security investments. We offer pragmatic, accessible guidance tailored to your risk profile, organizational maturity, and strategic goals.

Our consulting is modular, ranging from tactical improvements in data or identity security to broader, architecture-wide engagements. Delivered by deeply specialized Microsoft-certified experts, our services empower teams, reduce complexity, and drive measurable improvements fast.

Security Consultancy services we offer

Our Microsoft-aligned consultancy portfolio is built to address specific security domains and leadership-level oversight:

Microsoft Cybersecurity Consulting

Data Security Consultancy: Helps your organization implement and enhance the protection of sensitive information across cloud and on-premises services, devices, and AI environments. It follows a user-centric, risk-based approach that leverages the capabilities of Microsoft Purview.

Identity Security Consultancy: Focuses on advancing Microsoft Entra ID configurations beyond the basic implementations many organizations put in place years ago, ensuring they meet today's standards for more complex identity security demands.

XDR Consultancy: Enhance your Microsoft Defender XDR deployment. Address coverage gaps, improve visibility, and increase SOC efficiency with expert-backed optimization.

SIEM & SOAR Consultancy: Operationalize Microsoft Sentinel with improved log ingestion, correlation logic, and automated incident response workflows tailored to your environment.

IoT Consultancy: Secure your connected devices and operational technology environments with tailored Microsoft Defender for IoT configurations. Identify vulnerabilities, segment networks, and monitor threats across industrial and enterprise IoT landscapes.

Strategic Security Leadership

CISO Support: Bridge the gap between business strategy and technical implementation. Our senior security architects support CISOs with actionable insights, regulatory alignment, and a Microsoft-first security road-map using Nedscaper's NESA framework.

Our approach

We begin each engagement by understanding your environment, risks, and objectives. Using the Nedscaper Enterprise Security Architecture (NESA) and Microsoft-aligned best practices, we tailor a pilot-led approach to deliver results in as little as six weeks.

Our consulting approach includes:

- 01 Expert guidance and knowledge transfer to internal teams
- 02 Tailored and scalable delivery, adapting to your organization's maturity
- 03 Bite-size deployments to show ROI early and iterate fast
- 04 Employee-centric execution to ensure adoption without disruption
- 05 Standardized frameworks for repeatable, reliable results

Key benefits

- ▶ **Stronger Security Posture:** Close critical gaps in identity, data, and threat detection to reduce breach risk.
- ▶ **Fast, Measurable Results:** Gain improvements in as little as 4–6 weeks, backed by clear metrics.
- ▶ **Scalable, Risk-Based Approach:** Designed to align with your structure, resources, and compliance profile.
- ▶ **Efficient Use of Resources:** Achieve more with fewer internal resources by leveraging expert consultants.
- ▶ **Compliance Readiness:** Meet regulatory standards such as NIS2, DORA, GDPR, and ISO 27001.
- ▶ **Safe Adoption of AI & Modern Workflows:** Enable secure, compliant use of Generative AI and cloud collaboration tools.

Cybersecurity Investment (CSI) program

Various of our consultancy services may qualify for Microsoft funding through the Cybersecurity Investment (CSI) program. Including:

Why choose Nedscaper

Pragmatic, Accessible

By focusing on Microsoft's comprehensive security tools, we build on the software that many organizations already trust and rely on to run their operations. This alignment allows us to seamlessly integrate security into existing systems and processes, making cybersecurity a natural extension of their daily workflows.

A Human Approach

With Nedscaper, organizations gain a service that genuinely enhances their security. Our consultants are an integral part of our managed service: guiding clients, strengthening preventive measures, and providing them with a sense of safety and security.

More Value through Microsoft Specialisation

Nedscaper maximizes value by standardizing on a core of Microsoft technology. With our deep specialization, we understand how to secure our clients' environment effectively, and our close partnership with Microsoft not only leverages current capabilities but also allows Nedscaper to capitalize on future advancements.

Unique combination of Prevention and Detection

Our 'best of suite' strategy enables seamless integration of Microsoft's comprehensive security tools, allowing us to maximize the benefits of both preventive and reactive measures for our clients. While we acknowledge the critical role of detection in ensuring swift action when breaches occur, we are equally committed to elevating prevention measures beyond industry standards, significantly reducing the likelihood of incidents.

Making a Positive Impact

By partnering with Nedscaper, clients contribute to a better world while benefiting from high-quality talent at a reasonable cost. We are dedicated to nurturing young talent, particularly in South Africa, providing them with opportunities to develop into skilled cybersecurity experts.

Recognised Industry Excellence

In 2025, Microsoft named Nedscaper its Channel Security Partner of the Year, a recognition that reflects our impact, deep security expertise, and scalable delivery model. This award reinforces our commitment to helping partners and customers strengthen their security posture through proven excellence and innovation.

About Nedscaper

Nedscaper delivers pragmatic, accessible cybersecurity across Europe and Africa. Its Managed XDR platform provides real-time threat detection, rapid response, and expert consulting, ensuring 24/7 protection for organizations, and SMBs are supported through a partner network. Built around Microsoft's security tools, Nedscaper leverages software many organizations already trust, seamlessly integrating security into existing systems. This approach makes cybersecurity a natural extension of daily operations. With offices in Amsterdam, Cape Town, and Johannesburg, and a growing global partner network, Nedscaper continues to expand, building trust in the digital world. In 2025, Microsoft named Nedscaper its Channel Security Partner of the Year, recognizing our impact, specialization, and scalable delivery.
